

Feature

Multi-value NTC temperature sensor for connection to analogue input modules.

Technical Specifications

Environmental considerations		
Maximum connection distance	30 m	
Operating temperature	-20 a 60°C	
Operating humidity	10 a 80%, non-condensing	
Storage temperature	-20 a 60°C	
Storage humidity	10 a 90%, non-condensing	
Degree of protection	IP20	
NTC Sensor		
Sensor NTC 1 (25°C)	10k	30,5°C
Sensor NTC 2 (25°C)	6.8k	30,5°C
Certification		

UNE-EN 50491-5-1:2010, UNE-EN 50491-5-2:2010,
UNE-EN IEC 61000-6-3:2021, UNE-EN 50090-2-2

Safety notice

This component is a resistive element and must never be connected to power lines.
Installation must be carried out by qualified personnel.
